

ADVISER Status Update

August 9, 2023

ADVISER 2022-2023 Status

- “End of Year (Locked)” reports now available in ADVISER Validation
- The 2022-2023 Follow Up Collection is now occurring, through 10/2/2023
 - Includes Course, Graduation, and SPED data
 - Districts should not do anything to damage their existing 22-23
 - Some Powerschool districts have removed their graduation records, everyone please review your Completer and GCAT validation reports. NDE will be in contact soon.

ADVISER 2023-2024 Updates

- NDE is starting the final testing phase for the 23-24 Ed-Fi upgrade + move to Microsoft Azure cloud
- Will be testing Ed-Fi API functions on new Azure server, as well as ADVISER Validation on its new server
- NDE has begun certification testing with vendors, see [2023-2024 ADVISER Vendor Certification – Nebraska Department of Education](#)
- As discussed here last year, after 23-24 validation errors are running we will be moving any errors that look back at 22-23 data into their own category

Planning for ADVISER Upgrade

- **TENTATIVE ROLLOUT DATE – Friday September 1, 2023**
 - ADVISER will be offline all day in order to prevent data changes, then 22-23 database will be copied and moved to its new home one last time, as well as setting up the 23-24 database
 - NDE Portal link to get to ADVISER Validation will be pointed to its new location
 - NDE & EdWise will verify functions of API, Validation site, and overnight data loads through Labor Day weekend
 - Site should be ready to go Tuesday morning 9/5

Planning for ADVISER Upgrade

- **TENTATIVE ROLLOUT DATE – Friday September 1, 2023**

- The existing URL for sending 22-23 data to ADVISER will no longer work after 9/1, any attempt should throw an error in the SIS
- Districts will need to update their 22-23 Ed-Fi URL in order to continue sending in changes for the Follow Up Collection
- SIS Vendors should tell you whether or not you will need to change your URL and how, or they may do it for you
- 22-23 URL to use starting 9/5:
<https://app-adviser-api-prod-2023.azurewebsites.net>
- 23-24 URL to use starting 9/5:
<https://app-adviser-api-prod-2024.azurewebsites.net>
