<b>1:45 PM</b>	Breakout Rooms Series 3
<b>3:00 PM</b>	Breakout Rooms Series 4
<b>4:00 PM</b>	End of Conference

Join us for an engaging pre-conference session hosted by the Privacy & Technical Support Center (PTAC) of the US Department of Education. Delve into the intricacies of the Family Educational Rights and Privacy Act (FERPA) alongside the Protection of Pupil Rights Amendment (PPRA) in an insightful presentation.

Explore the requirements of FERPA and PPRA and how they directly impact school districts. Gain invaluable insights into ensuring compliance and best practices for district staff. Additionally, discover essential information on data sharing compliance, which is essential for safeguarding student privacy.

This session offers a unique opportunity to deepen your understanding or refresh your knowledge of the obligations imposed on schools and districts. Participants will have the chance to discuss specific scenarios or events they've encountered, either in an open Q&A or privately with PTAC.

For those unable to attend the pre-conference session, the sessions will be reprised on Wednesday, ensuring all conference attendees have access to this indispensable knowledge. Don't miss out on this unparalleled opportunity to enhance your expertise and ensure regulatory compliance in the educational landscape.
